BQE

CORE

A game changer
for professional services firms

For two decades, BQE has been innovating to make businesses more efficient. CORE is our latest breakthrough — a complete business management solution designed to simplify your time and expense tracking, billing, project management, and accounting.
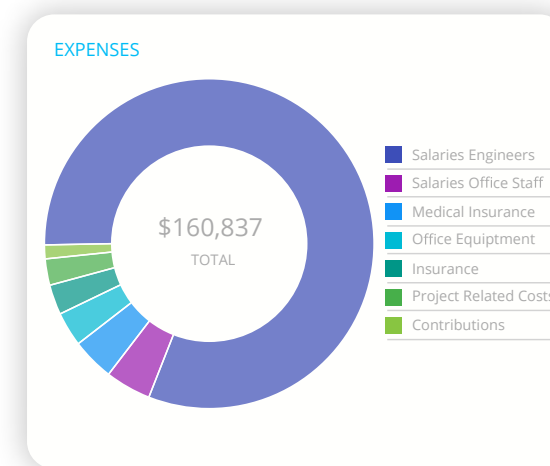

Let's see how CORE will transform your business.

Get a complete snapshot of your business

CORE gives you multiple, customizable dashboards, so you can see all the real-time information you want, whenever you log in. Instantly access actionable insights, so you can adjust your business as you need to.

Better understand KPIs like project performance, staff utilization, earned value, gross margins, and more. Configure your dashboards as pie charts, bar graphs, or interactive lists, so you can assimilate your data in a manner that makes most sense.

Configure bars, graphs, and lists your way.

KEY BENEFITS

- See how your business is doing, every time you log in
- Take advantage of multiple, customizable dashboards
- Enjoy an easy-to-understand graphical interface
- Display key performance indicators

Know exactly where you stand

We get it — time and expense tracking isn't anyone's favorite task. But if this information isn't kept up to date, it hinders project management, as well as business performance.

With CORE, managing your billable hours and reimbursable expenses is no longer a chore.

It's intuitive time and expense interface makes it quick and easy for staff to enter their information. And when team members actually enjoy making entries on their timecards, they won't delay doing it. The end result is that managers have the real-time information they need to reallocate resources as needed, we well as send out invoices on time.

Run your business on the go with free mobile apps.

KEY BENEFITS

- Choose from simple, flexible timecards and timers
- Switch between multiple timers
- Attach receipts to expenses
- Record expenses in multiple currencies

Make the best use of your resources

Which projects are running over budget? What was your firm's most profitable project in the last 6 or 12 months? Who is the most underutilized employee in your company? With CORE, this information will be at your fingertips.
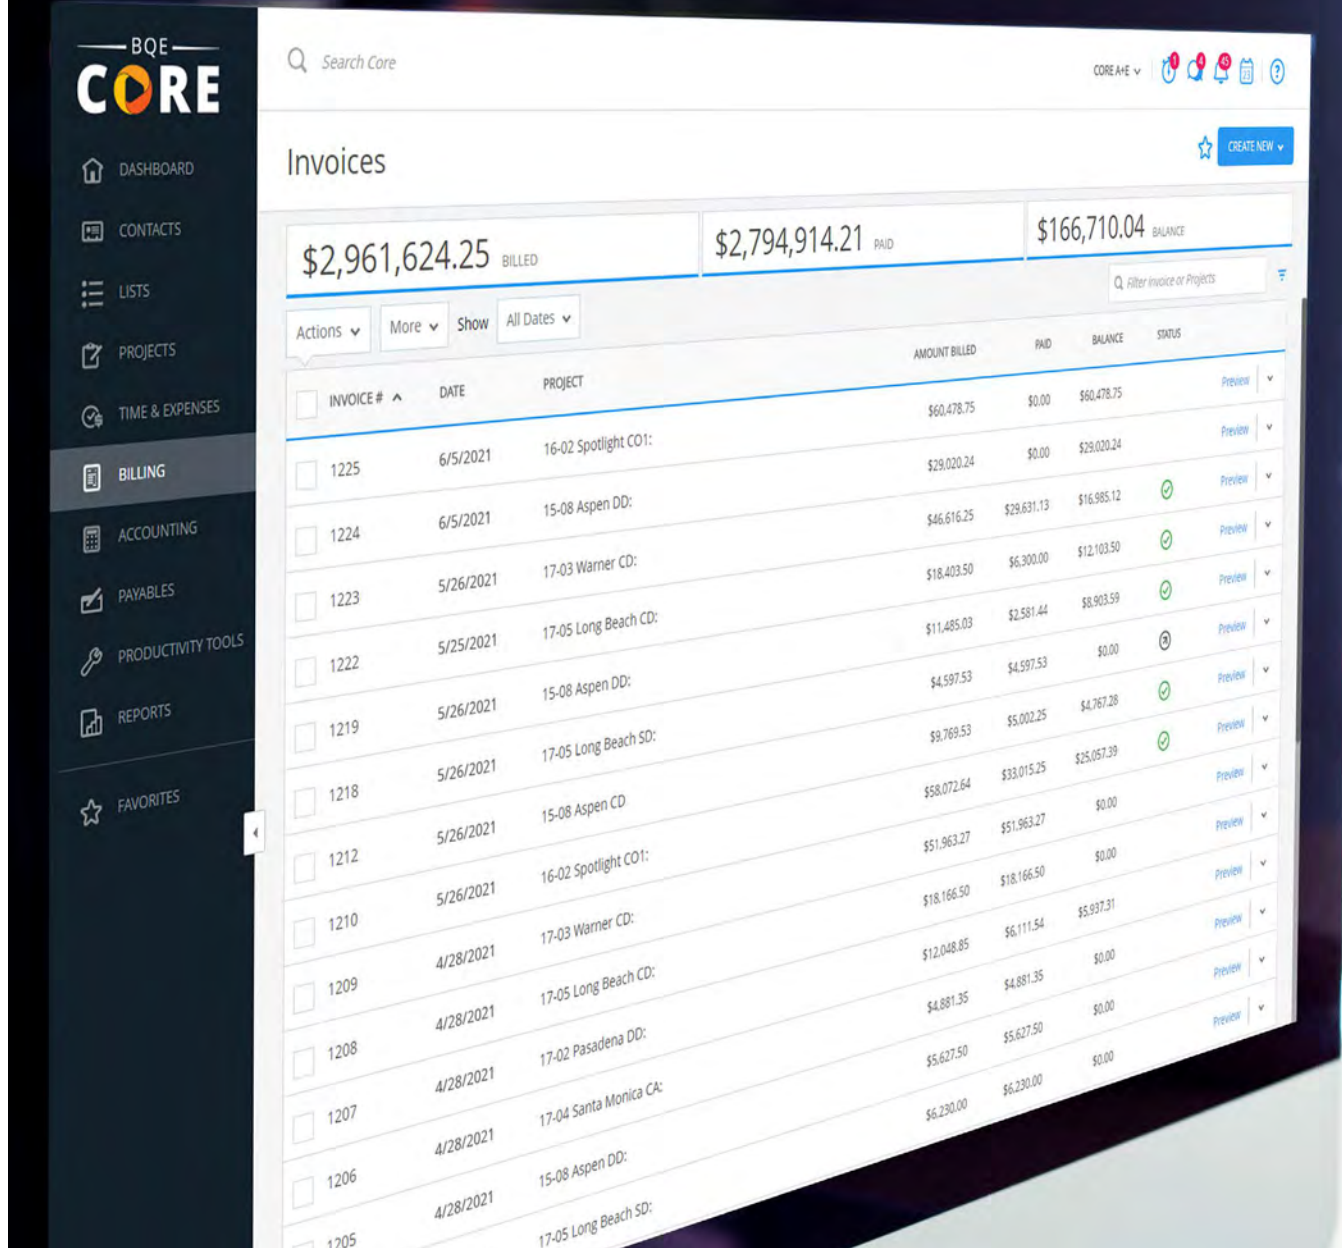

Stop toggling back and forth between spreadsheets to figure out how to best manage your projects. Access data in real-time, so you have everything you need to quickly make informed decisions.
